**Interns Roles**

When interns enter a case into the NIHS Procedure Log System, they must indicate their major role in the case (autonomy level).

- **Assistant** scrubbed in and performed less than 50 percent of the procedure or greater than or equal to 50 percent, but not the key portion(s) of the procedure.
- **Independent intern** must perform greater than or equal to 50 percent of the procedure, including the key portion(s) of the procedure. This is consistent with level 4 on the EPA entrustment scale.
- **P.S:** Teaching assistant role is not applicable to internship

***P.S. There is a separate Appendix 1 for each specialty on NIHS website.***
